

MUHAMMAD FAIZAN

MERN Stack Developer Intern

Mianwali, Pakistan | faizannaizi007@gmail.com | +92-303-2798007 | [linkedin.com/in/muhammad-faizanmk](https://www.linkedin.com/in/muhammad-faizanmk) | github.com/Faizan-mk

PROFILE

MERN Stack Developer Intern candidate with hands-on experience building responsive React.js front-ends, secure JWT-authenticated REST APIs with Node.js and Express.js, and well-structured relational and NoSQL data models (MySQL/Sequelize ORM and MongoDB). Computer Science graduate (CGPA 3.44/4.0) with 5+ full-stack and backend projects, seeking a MERN Stack Developer internship to contribute to production-grade web applications.

CORE COMPETENCIES

Full-Stack Web Development • RESTful API Design • Database Design & Modeling • Authentication & Authorization • Problem Solving • Team Collaboration • Version Control (Git)

EDUCATION

Bachelor's Degree in Computer Science — University of Mianwali

2022 – 2026

CGPA: 3.44 / 4.0

EXPERIENCE

Backend Developer Intern, DevelopersHub Corporation (Remote)

03/2026 – 04/2026

- Engineered RESTful APIs with Node.js and Express.js, and designed normalized MySQL database schemas using Sequelize ORM.
- Implemented full CRUD operations across multiple resources and validated endpoints using Postman test collections.

Frontend Developer Intern, Code With Alpha (Remote)

04/2025 – 05/2025

- Developed responsive, mobile-first front-end interfaces in React.js from UI/UX design specifications, improving cross-device consistency.

SKILLS

Frontend: React.js, React Router, Context API, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, bcrypt, Middleware

Databases: MongoDB, MySQL, Sequelize ORM, Database Design, Migrations & Seeders

Tools & Practices: Git, GitHub, Postman

PROJECTS

Hostel Management System — Full-Stack MERN/MySQL Application

- Architected a full-stack hostel/dormitory management platform with separate Admin and Student dashboards serving distinct role-based workflows.
- Built Admin panel modules for room allocation, student & staff management, fee tracking & invoicing, complaint handling, and a notice board.
- Implemented JWT access/refresh token authentication, role-based access control (RBAC), file uploads, and database migrations/seeders.

Tech: React.js, React Router, Node.js, Express.js, MySQL, Sequelize ORM, JWT

AI-Based Travel Planner — MERN + AI Integration

- Built an AI-powered travel planning platform featuring an AI chatbot assistant, budget planner, and expense tracker.
- Integrated real-time weather updates, an SOS emergency module, and smart trip notifications to enhance user safety and engagement.

Tech: React.js, Node.js, Express.js, MySQL, Sequelize ORM, JWT, bcrypt

User Authentication System — MERN Stack

- Developed a full-stack authentication system from scratch with secure registration, login, and JWT-based session management.
- Implemented bcrypt password hashing, protected-route middleware, and global auth state management via Context API.

Tech: React.js (Vite), Node.js, Express.js, MongoDB, JWT, bcrypt

PssOp (Password Manager) & CryptoWallet Admin Dashboard

- Built a secure password manager with a React.js frontend and an Express.js/MongoDB REST API backend.
- Developed a responsive React.js admin dashboard with analytics widgets and transaction tracking views.

Tech: React.js, Node.js, Express.js, MongoDB

CERTIFICATIONS

- Frontend Development Internship — CodeAlpha, Apr 2025
- Back End Development Internship — DevelopersHub Corporation, Mar–Apr 2026
